# YOUR LAWNS NEED ATTENTION THIS AUTUMN

A few dollars  
wisely expended  
right now, will  
save your turf  
representing a  
large investment  
in time and money

# YOUR LAWNS represent quite an investment — are they suffering?

---

Generally speaking, the present condition of Lawn Areas is far from satisfactory, due to severe drought periods and stringent economies exercised more especially the past two seasons as a result of the shrinkage of financial incomes.

Permanent stands of grass, which have taken years of effort to build up to a state of perfection, are suffering—losing vitality and turning brown—when at small cost they could be restored.

Can you afford to let matters go from bad to worse? A little money goes a long way in Fertilizers and Grass Seed sufficient to bring back the lawns to perfection if the work is done in time.

But delays are dangerous if the lawn-areas get beyond repair, it being a far more expensive matter if it becomes necessary to start all over again.

Let us co-operate with you. In many cases, maybe a good mulching is all that is required with a little seeding here and there. In others, perhaps a dressing of the Lawn Areas with Hunt's Lawn Dressing Seed, which is a combination of seed and fertility in one operation.

Whatever the need, we shall be glad to confer with you and advise according to the actual requirements in each and every case.

But the point which we desire to emphasize more than anything else is the necessity of quick action **THIS FALL**. Do not procrastinate. Determine now not to waste a day! The lawns in nine cases out of ten are in jeopardy and prompt attention is absolutely necessary.

FOR YOUR CONVENIENCE WE LIST HEREIN FERTILIZERS  
AND OTHER MATERIALS USED IN THE BUILDING OF  
LAWNS, ETC.

# THIS AUTUMN is the time to effect prompt restoration

ACID PHOSPHATE (Superphosphate). Unexcelled for all crops and as a top dressing. . . . . 100 lbs., \$2; ton \$25.00

ADCO. An artificial stable manure. The process consists of making a heap of all garden trash as it is collected and adding Adco. In three or four months the heap is converted into a pile of excellent manure. Instructions free on request.  
Bags of 150 lbs. for \$10.50

AGRICULTURAL LIME. For use on sour soils. Ton \$35; carload lots in 100-lb. bags \$12.50 per ton; carload lots in bulk, \$6 per ton.

ARSENATE OF LEAD, Powder. For spraying and dusting. One pound makes 15 gallons of solution.  
5 lbs. \$2.00; 25 lbs. \$7; 100 lbs. \$17.50

BONE-MEAL FOR GENERAL USE. Pure ground bone.  
100 lbs. \$4; 200 lbs. \$7.50; ton \$55.00

BONE-MEAL. Fine-ground. . . 100 lbs., \$4.50; 200 lbs., \$8.00; ton \$65.00

DRIED BLOOD. A valuable organic stimulant, high in nitrogen.  
100 lbs. \$5.50; 200 lbs. \$9.00; ton \$75.00

FERTILIZER 4-8-4. A well-balanced formula. 100 lbs., \$3.50; ton \$50.00

HUMUS, HYPER. In carload lots in bulk at. . . . . \$9.00 per ton

LAWN SAND. (Imported.) Kills dandelions, etc.; fertilizes the lawn . . . . . 28 lbs. \$7; 56 lbs. \$10; 112 lbs. \$18.00

LAWN TOP DRESSING (Fertilizer) . . . . . 100 lbs. \$4.00; ton \$60.00

PEAT MOSS, granulated. An excellent mulch for lawns providing moisture . . . . . Bale \$4.00; 5 bales \$18.00

PLANTSPUR Fertilizer. An all-purpose fertilizer. Gives wonderful results on lawns. . . . . \$3.50 per 100 lbs.; ton \$60.00

SCOTCH SOOT—Did you ever try it on a lawn? Just watch the results—how it turns the grass to that deep rich green.  
100 lbs. \$6.00; 500 lbs. \$25.00

SEMESAN. An effective remedy for the control of brown patch on lawns and putting greens; also for treatment of seed, preventing blight, damping off, and mould.  
5 lbs. \$13; 25 lbs. \$62.50; 100 lbs. \$240.00

SHEEP MANURE, Pulverized. . . . . 100 lbs. \$4; 200 lbs. \$7.50; ton \$60.00

SULPHATE OF AMMONIA. Excellent for improving lawns and putting greens, also used for top dressing crops. Contains ammonia, 24 per cent, and nitrogen, 19 per cent.  
100 lbs. \$4; 200 lbs. \$7.50

TOBACCO STEM MEAL, sterilized. For fertilizing and mulching.  
\$3.50 per 100 lbs.; ton \$55.00

WOOD ASHES, Canada. . . . . 100 lbs. \$4.00; ton \$60.00

WORM ERADICATOR (Powdered). Used at the rate of 100 lbs. to each 200 square yards of turf. Spread in rainy weather or follow with the hose. The worms immediately come to the surface and die. . . . . 100 lbs., \$4.00; ton \$65.00

# HIGH GRADE SEED is of first importance in Lawn Building

---

## MAKING A NEW LAWN

To produce a good lawn requires considerable work; do not make the mistake of trying to cheapen the preparation, for nowhere in the garden is the old axiom of "what is worth doing, is worth doing well," better illustrated than in lawn-making.

The soil must be deep; a good lawn cannot exist on poor soil. Plow the ground deeply—a foot is none too much. Apply to the soil before plowing, a heavy coating of well-rotted stable manure. Fresh manure carries too many weed seeds; its use should be avoided. If rotted manure is not available, use sheep manure or chemical fertilizer.

Ground bone-meal,  $1\frac{1}{2}$  tons to the acre, is a good lawn fertilizer, furnishing plant-food over a long period; 100 pounds of nitrate of soda and 100 pounds of dried blood to the acre should be applied at the same time; these furnish nitrogen for immediate use. Sheep manure at the rate of 1,000 pounds to the acre may be used instead of nitrate of soda and dried blood. When only a small lawn is being made, use 20 pounds of bone-meal to 250 square feet,  $\frac{1}{2}$  pound each of nitrate of soda and dried blood, or 6 pounds of sheep manure. Harrow and cross-harrow until the ground is thoroughly pulverized; the better harrowed the ground is, the better the grass will grow and the more permanent the lawn.

An acre requires 175 pounds of seed or one pound to each 150 square feet. Harrow or rake the ground lightly, and roll with a heavy roller.

## HUNT'S PERFECTION LAWN SEED MIXTURE

As the result of careful study and trials continuing for many years, this mixture contains the seeds of many different grasses with various virtues. The early-maturing type gives a quick greenness in the spring and early summer. The late type maintain spring freshness until the approach of winter. Only those varieties with deep, moisture-holding roots have been included, in order to overcome the prevailing dry tendencies of American summers, thus reducing the amount of artificial watering necessary for insuring an even, green, springy turf throughout the summer. The success which has attended the planting of this seed has made it the favorite grass seed wherever a superlatively fine lawn is important. In each and every instance, remarkable results have been attained, justifying the careful study and experiment which went into the production of this mixture.

1 lb. 70 cents; 20 lbs. \$11.00; 100 lbs. \$50.00

Hunt's Perfection Lawn Seed contains 10 per cent South German Mixed Bent (Creeping Bent).

## PROSPECT PARK LAWN SEED MIXTURE

This mixture is made of the finest American and European grasses specially adapted for lawns. With proper care of the soil before sowing it will produce a rich, velvety lawn in four to six weeks, which will remain green throughout the year. For making new lawns we recommend 7 bushels to the acre; 1 pound of seed will sow 150 square feet; for renovating use one-half this quantity.

1 lb. 40 cents, 20 lbs. \$7.50, 100 lbs., \$35.00, 1000 lbs. \$300.00

**MIXTURE FOR SHADY LAWNS AND UNDER TREES.** This mixture is a combination of dwarf-growing grasses which thrive in shaded places. It quickly produces an abundant and even growth of lovely green grass where ordinary lawn seed mixtures are failures.

1 lb. 50 cents, 20 lbs. (bus.) \$9.00, 100 lbs. \$40.00

# HUNT'S LAWN MIXTURES have gained an enviable reputation

**TERRACE LAWN SEED.** A mixture of fine stoloniferous grasses specially suited to terraces. Will produce a rich and lasting turf. Sow at the rate of two pounds per 100 square feet. This mixture is a combination of such grasses as will make a quick, strong growth, taking a firm hold of the soil and prevent washing away by heavy rains.

1 lb. 50 cents, 20 lbs. \$9.00, 100 lbs. \$40.00

**SEASHORE MIXTURE.** This mixture is peculiarly suited to seaside lawns, etc.....1 lb. 50 cents, 20 lbs. \$9.00, 100 lbs. \$40.00

**POLO FIELD and ATHLETIC GROUND MIXTURE.** A mixture of specially selected grasses for heavy tramping that will quickly recover from hard usage.....100 lbs. \$40.00, 500 lbs., \$190.00

## HUNT'S LAWN DRESSING SEED

Our **LAWN DRESSING SEED** is a scientific blending of the **Finest Lawn Seeds** with those fertilizing elements that give nourishment to the rootlets, thus insuring perfect growth, fine texture, and deep, rich coloring. Germination and rapid growth are stimulated by its free use.

### Unsurpassed for Restoring Old Lawns

"Old age" impairs the looks of many lawns. Bare and worn spots are developed; weeds spring up and choke the grass. **Lawn Dressing Seed** will restore these lawns. Rake the worn spots thoroughly with an iron-tooth rake; spread the **Lawn Dressing Seed** heavily on such places and more lightly on the remainder of the lawn. A new growth will soon appear covering the whole surface with a thick turf.

### Gives New Lawns the Right Start

After preparing the ground spread **Lawn Dressing Seed** at the rate of 25 lbs. to each 250 square feet. This gives a foundation for a perfect lawn. A day or two later sow the whole area with our **Prospect Park Lawn Seed** at the rate of 1 pound to each 250 square feet. This insures a permanent turf of fine texture which will remain green from spring to fall. For **Golf Courses** this product quickly brings the turf to perfection. Our **Lawn Dressing Seed** is recommended for **Fairways** and **Putting Greens** where it is vitally important to have the finest surface.  
100-lb. bag, \$35.00; 50-lb. bag, \$18.00; 25-lb. bag, \$10.00; 5-lb. bag \$3.00

## GENERAL LIST OF GRASSES

We only handle the best grades, of strongest vitality and highest purity. Prices subject to fluctuation.

CANADA BLUE GRASS. Sow 60 lbs. per acre. Weight	lb.	100 lbs.
per bus., 14 lbs. ....	\$0.40	\$30.00
CHEWING'S FESCUE. Weight per bus., 26 lbs. ....	.40	30.00
COOS COUNTY BENT (Seaside Bent; <i>Agrostis maritima</i> ). 28 lbs. per bus. ....	1.50	125.00
COLONIAL BENT ( <i>Agrostis vulgaris</i> ). Grown in New Zealand. A desirable grass for putting greens. Weight per bus., 20 lbs. ....	1.60	140.00
CREEPING BENT (South German Mixed Bent). Weight per bus., 16 lbs. ....	1.30	120.00
CRESTED DOG'S TAIL. Weight per bus., 20 lbs. ....	.50	40.00
ENGLISH RYE GRASS. Sow 60 lbs. to acre. Weight per bus., 24 lbs. ....	.20	17.50
FINE-LEAVED FESCUE. Weight per bus., 16 lbs. ....	.70	60.00
HARD FESCUE. Weight per bus., 20 lbs. ....	.35	30.00
ITALIAN RYE GRASS. 50 lbs. per acre. Weight per bus., 18 lbs. ....	.20	17.50
KENTUCKY BLUE GRASS. Sow 70 lbs. per acre for lawns, 40 lbs. for pasture. Weight per bus., 14 lbs. ...	.30	25.00
MEADOW FESCUE. Sow 45 lbs. per acre. Weight per bus., 14 lbs. ....	.25	20.00
ORCHARD GRASS. Weight per bus., 14 lbs. ....	.25	22.50
RED OR CREEPING FESCUE. Sow 35 lbs. per acre. Weight per bus., 14 lbs. ....	.45	40.00
REDTOP, FANCY, or RECLEANED. Weight per bus., 32 lbs. ....	.30	25.00
RHODE ISLAND BENT ( <i>Agrostis tenuis</i> ). One of the best grasses for lawns. Weight per bus., 14 lbs. Very scarce ....	1.50	125.00
ROUGH-STALK MEADOW GRASS ( <i>Poa trivialis</i> ). Will thrive under dense shade, provided the situation is moist. Weight per bus., 18 lbs. ....	.30	27.50
TIMOTHY. If used alone sow 30 lbs. to the acre. Weight per bus., 45 lbs. ....	.15	12.50
SHEEP FESCUE. A valuable variety for the rough. Re- quires only one cutting the whole season. Weight per bus., 20 lbs. ....	.25	22.50
SUDAN GRASS. Very valuable grass for hay, especially in sections subject to drought; grows 4 to 9 feet high, and yields three to five tons of excellent hay per acre. Sow 25 lbs. per acre. ....	.15	12.50

## PERMANENT PASTURE GRASS MIXTURE

	Sow 80 pounds to the acre	100 lbs.
No. 1 MIXTURE. For light soils . . . . .		\$35.00
No. 2 MIXTURE. For medium soils . . . . .		40.00
No. 3 MIXTURE. For heavy soils . . . . .		40.00
No. 4 MIXTURE. For hay only . . . . .		42.50
No. 5 MIXTURE. For pasture only . . . . .		45.00

# YOUR OPPORTUNITY — buy now, all orders shipped immediately

## CLOVERS

CRIMSON OR SCARLET ( <i>Trifolium incarnatum</i> ). Sow 15 to 20 pounds per acre.....	lb. \$0.25	100 lbs. \$20.00
ALFALFA (Lucerne). 20 to 25 pounds per acre.....	.45	40.00
ALFALFA, GRIMM'S .....	.55	50.00
ALSIKE CLOVER. Sow 10 lbs. per acre if used alone...	.35	30.00
MEDIUM RED CLOVER ( <i>Trifolium pratense</i> ). 20 lbs. per acre .....	.40	35.00
LARGE RED or PEA VINE CLOVER ( <i>Trifolium pratense perenne</i> ). Sow 15 lbs. per acre.....	.40	35.00
SWEET CLOVER, BOKHARA ( <i>Melilotus alba</i> ).....	.20	14.00
WHITE CLOVER ( <i>Trifolium repens</i> ). In spring at rate of 8 pounds per acre.....	.65	60.00

## SEED RYE

For grain, sow 1 bushel to the acre; for forage or soiling, 1½ bushels (56 lbs. to the bushel)

GIANT WINTER KING. Good cover-crop.....	Bus. \$2, 10 bus. \$18.50
ROSEN RYE. An improved form of Russian Rye..	Bus. \$2.25, 10 bus. \$20

## SEED OATS

REGENERATED SWEDISH SELECT. Popular for its heavy yields and specially adapted for light soils.....	Bus. \$2.50
STORM KING. A very early variety that makes a strong growth of straw, producing 70 bushels per acre. The large heads are well filled with big, heavy, white grains.....	2.25

## BUCKWHEAT

Sow 1 bushel (48 lbs.) to the acre

JAPANESE. Early and productive, yielding almost double that of the other varieties .....	Bus. \$2.50
SILVERHULL. Light gray grain.....	2.75

## MILLET

Sow 50 pounds to the acre

GOLDEN MILLET. Grows 4 to 5 feet high and yields a heavy crop..	100 lbs. \$7.00
HUNGARIAN. Yields a heavy growth of excellent hay. Can be sown as late as July.....	8.00
JAPANESE. Grows 6 feet high and yields 10 tons green fodder per acre. When cured it makes an excellent quality of hay, and is a much relished green fodder.....	9.00

## VETCHES

WINTER VETCHES or TARES ( <i>Vicia villosa</i> ). For fall sowing, use 1 bushel of the seed per acre with 1 bushel of rye.....	100 lbs. \$14.00
--	------------------

BURLAP, WRAPPING. For protecting plants. In lengths 25 to 200 yards. Yard	MATS, FROST-PROOF, BURLAP. No. 2D. Waterproof duck, one side. Each Doz.
